BEVERAGES

May 2024

Chart 1: Beverage Production Composite Index, Percentage Change

- The **Composite Beverage Production Index** consisting of alcoholic and non-alcoholic beverages for May 2024 rebounded on a monthly basis, registering an increase of 15.9 percent, in contrast to a reduction of 19.0 percent recorded in April 2024. Year-on-year, the index grew by 8.7 percent (Chart 1).
- The increase on the monthly basis emanates mainly from a higher production of alcoholic beverages that increased by 24.7 percent.
- Beverage production during the month under review stood at 289 551 hectolitres, an increase when compared to 249 890 hectolitres and 266 313 hectolitres recorded in April 2024 and in the corresponding period of 2023, respectively.

Chart 2: Alcoholic Beverage Production Index, Percentage Change

- The **Alcoholic Beverage Production Index** in May 2024 increased by 24.7 percent on a monthly basis, as opposed to a reduction of 23.2 percent witnessed in the previous month. Additionally, the index rose by 21.9 percent on an annual basis (Chart 2).
- The production of alcoholic beverages in May 2024 stood at 164 792 hectolitres, upward from 132 170 hectolitres posted in April 2024 and 135 180 hectolitres that was recorded in the corresponding period of 2023.

Chart 3: Non-Alcoholic Beverage Production Index, Percentage Change¹

- For the period under review, the **Non-Alcoholic Beverage Production Index** recorded a monthly increase of 6.0 percent, compared to a decrease of 13.6 percent that was posted in the preceding month. Conversely, the index reduced by 4.9 percent year-on-year (Chart 3).
- A total of 124 759 hectolitres of non-alcoholic beverages were produced in May 2024, indicating an increase from 117 720 hectolitres in the preceding month and 131 133 hectolitres recorded in the corresponding month of 2023.

¹ Chart 3 is limited to 150 percent for better readability.

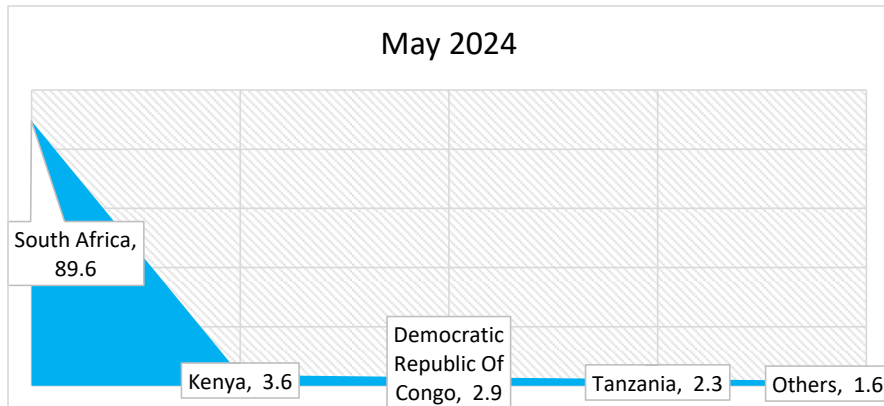

Chart 4: Beverage Export Composite Index, Percentage Change²

- The **Beverage Export Composite Index** for May 2024 increased by 50.6 percent on a monthly basis as opposed to a reduction of 28.6 percent that was registered a month earlier. Moreover, the index recorded an increase of 57.9 percent year-on-year (Chart 4).
- During the month under review, 36 749 hectolitres of beverages were exported compared to 24 405 hectolitres and 23 280 hectolitres of beverage that was exported in April 2024 and May 2023, respectively.
- For the same period, Namibia exported a total of 36 518 hectolitres of alcoholic beverages, of which beer accounted for a share of 90.6 percent (33 099 hectolitres).

² Chart 4 is limited to 100 percent for better readability.

Chart 5: Export of Beverages by Partner Country, Percentage Share

- South Africa continues to be the top export market for Namibia's beverage accounting for 89.6 percent of the total beverage export during May 2024, followed by Kenya (3.6%) in second position and Democratic Republic of Congo (2.9%) in third position (Chart 5).

Chart 6: Beverage Import Composite Index, Percentage Change

- **The Beverage Import Composite Index** for May 2024 on a monthly basis declined by 3.5 percent, in contrast to an increase of 6.6 percent recorded in the preceding month. Moreover, the index increased by 28.9 percent annually (Chart 6).
- During the period under review, Namibia imported 113 029 hectolitres of beverages compared to 117 071 hectolitres that were registered in April 2024 and 87 655 hectolitres imported during the month of May 2023.

Chart 7: Import of Beverages by Partner Country, Percentage Share

- In May 2024, South Africa remained the top import source for beverages with a share of 92.5 percent, followed by Germany with 2.9 percent. While Zambia and Spain accounted for an import share of 2.7 percent and 0.7 percent, respectively (Chart 7).

Methodology:	Graphical and tabular analysis
Data Sources:	The data sources for volume in Hectolitres of beverage are sourced from Namibia Breweries, Coca-Cola Namibia Bottling Company, ABInBev Namibia (SAB Miller Namibia at Okahandja) and Trade data from NamRa. This is data on the production of alcoholic beverages (beer production) and non-alcoholic beverages (soft drinks). Alcoholic beverage production is the total of alcoholic beverages produced by Namibia Breweries and ABInBev Namibia. Whereas non-alcoholic beverage production data was a sum of soft drinks produced by Namibia Breweries and Namibia Beverages. The unit of measure is Hectolitre (hl).
Base year:	The beverages sectoral report is harmonised with the quarterly and annual National Accounts base year 2015.
Index calculations:	The index of beverage production was weighted using the volume data of 2015. The index is then calculated as a ratio of the volume of a specific component in a specific month to the total volume of that component in 2015.
Conversion:	1 basis point = 0.01 percent
Revision:	Data was revised based on the new dataset received from the data sources.
